EXPERIENCE

ShippingEasy (Auctane) — *Software Engineer*

November 2020 - PRESENT

Ownership of 3rd party marketplace migrations from direct integrations to centralized service (Amazon, Wish, Shopify, Etsy)

Migrate integration with Amazon from MWS to SP-API

Led USPS rate changes (updating rates, adding new services, etc)

Integrate against carriers like FedEx, UPS, Stamps, ShipEngine, etc

Favorite part of job: weekly deploys & excellent coworkers

ScaleFactor — *Software Engineer Intern*

June 2019 - June 2020

Startup life - tight turnarounds and quick sprints

Integrate with external services (Salesforce, Bill.com, Quickbooks, Xero, Stripe)

Favorite part of job: I learned how to find the code that was linked to what I saw in the browser. Big moment for me.

St. Edward's University — *Digital Information Associate*

May 2018 - May 2019

Essentially IT Help Desk job

Favorite part of job: Exposure to lower level parts of technology like computer images, drivers, hard drive partitions, etc

EDUCATION

St. Edward's University — *Bachelor's in Computer Science*

2015 - 2020

Originally a PR & Advertising major. Switched to Computer Science after a poor internship experience in 2016.

1 year on varsity women's soccer team (2015-2016)

TECHNOLOGIES

Confident with Git (VCS)

Redis caching

CI/CD with Buildkite

Postgres DB

Digging through Kibana logs

Track errors in Honeybadger

Kubernetes & AWS

Datadog monitoring

Unit testing with Rspec

LANGUAGES

Ruby on Rails

ActiveRecord & SQL

React JS

Python & Java

Ember JS

MISC

I will move my tickets in Jira

No stale pull requests

I will offer feedback & questions on peers PRs

I will read through the docs before I ask for help (promise)
